

Divya High School

Bhadrachalam

PRE-FINAL EXAMINATIONS, FEBRUARY - 2026

Class: X Max. Marks: 40 Time: 3.00 Hrs Year: 2026

SECTION-I

Answer all

1. A long English question about coordinate geometry. A long English question [4 m]
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry.
2. A long English question about coordinate geometry. A long English question [4 m]
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry.
3. A long English question about coordinate geometry. A long English question [4 m]
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry.
4. A long English question about coordinate geometry. A long English question [4 m]
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry.
5. A long English question about coordinate geometry. A long English question [4 m]
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry. A long English question about coordinate geometry.
A long English question about coordinate geometry. A long English question
about coordinate geometry.

SECTION-II

Answer any two

6. Prove that root 2 is irrational.

[6 m]
